2021 PART IV

From the Kremlin's perspective, hybrid warfare is a tactical application of the chaos strategy. It is full spectrum warfare that deploys a blend of conventional and nonconventional means aimed at affecting on the ground changes in target while seeking to avoid direct military confrontation with Western states. Hybrid warfare is employed in a tailored way to sow chaos in target countries. Such efforts generally include irregular warfare, active measures, and special operations.

(The Center for European Policy Analysis, 1-28-21)

"The Russian state very much wants to see a multipolar world. I don't believe we're necessarily in that world order yet. However, I do think the international system is much more complicated than it was before...But I still think we are in a unipolar world order and Russia like China is very much interested in changing that and is taking steps to change that."

(Anna Borshchevskaya, 11-21-21)

But what many people fail to realize
is that behind the scenes
of the governments of the world is a shadow government
made up of two warring factions of Kenites
symbolized by the 'he goat' written of in Daniel 8.

On one side are the Kenites who (through Edom) are attempting
to bring what they call a 'multipolar world order' into being,
while on the other side are the Kenites who operate through
the left/right paradigm (symbolized by Ammon and Moab)
who are attempting to perpetuate and improve upon
the so-called 'unipolar world order'.

This war within the Kenite Nation will continue to be fought through
their puppets within the governmental infrastructures throughout the globe
up until the United Nations (which is the 'great horn' of the 'he goat'
of Daniel 8:8) gets 'broken' and then the so-called new world order will emerge
at the woe of the fifth trumpet which then receives a 'deadly wound' after which
Satan appears as the false christ and the new world order
becomes a one world religious system at the woe of the sixth trumpet.

CONFRONTING THE KREMLIN's NEW HYBRID WAR IN EUROPE

(project-syndicate, 11-19-21)

(EXCERPT)

As winter approaches, the Kremlin is instigating trouble in Europe. Its latest machinations include a gas war against Central and Eastern European countries; a migration crisis along Belarus's borders with Lithuania, Latvia, and Poland; a renewed military mobilization on Ukraine's eastern border; and agitation for Serbian secession from Bosnia and Herzegovina.

Although this campaign has multiple objectives, a common thread runs through it: the Kremlin's desire to divide and weaken the European Union. That means acquiring Germany's approval of the Nord Stream 2 gas pipeline as fast as possible; disrupting the EU gas market, with a view to returning to Soviet-style long-term contracts, with gas prices tied to oil; and weakening Ukraine and forcing Moldova to abandon its European Association Agreement and join Russia's Eurasian Economic Union instead.
