BRICS SUMMIT TO FOCUS ON AFRICA

A BRICS summit in Johannesburg this month will seek to enhance the five-nation grouping's trade ties with Africa host South Africa said on Monday.

The continent has emerged as a renewed diplomatic battleground, with the West, Russia and China vying for influence amid heightened competition for minerals and international divisions fostered by the war in Ukraine.

At the second Russia-Africa Media Forum held in St. Petersburg, top managers of Russian and African leading news agencies have agreed to strengthen media operations aim at countering Western narratives about Russia and widespread disinformation in the African continent, and to largely contribute to strengthening the emerging multipolar world.

Here we see more anti-unipolar propaganda which is part of the attempt to talk 'the new multipolar world order' into existence as the two warring factions of Kenites continue their global civil war being fought mostly through the electronic media (which is part of the hidden dynasty of education) which is also helping to accelerate the formulation of the Ezekiel 38 confederacy which includes Libya and Ethiopia (which are both African countries) and is headed by Gog, the chief prince of Meshech and Tubal which are most likely Moscow and Tobolsk.

But there will be no 'new world order' until the United Nations (which is the great horn of the he goat in Daniel 8:8 in my opinion) gets broken and then the so-called 'new world order' will emerge at the woe of the fifth trumpet, when the he goat becomes the leopard of Daniel 7 (which is symbolic of the Kenites and their four hidden dynasties) the Ezekiel 38 confederacy becomes the bear and the lion is symbolic of the Christian nations up until Satan appears as the antichrist in Jerusalem at the woe of the sixth trumpet (right after the deadly wound) because most Christians will at that time be deceived into worshipping Satan causing the Christian nations to become non-Christian nations. The TRUE Christ will not return (at all) until the woe of the seventh trumpet.

WILL THE WAR IN UKRAINE END THE UNITED NATIONS?

(swissinfo.ch, 5-11-23)

(EXCERPT)

After 15 months of fighting between Russia and Ukraine, the UN has been unable to put an end to the fighting or even broker a ceasefire. It has done little more than bemoan serious breaches of human rights and grave violations of humanitarian law. Yes, Russian President Vladimir Putin has been indicted by the International Criminal Court, but this has led to no obvious consequences for his conduct of the war. Neither have various sanctions had any effect in stopping the war.

There is a precedent for the UN's inability to stop the fighting with dire institutional consequences. The League of Nations tried economic sanctions against Italy, but they did not stop the Italian invasion of Ethiopia.

'Today, we are witnessing another crusade by the United States and its allies against the entire non-Western world.

This crusade aims to hamper the assertion of a multipolar world order.

It is necessary to rebuff this drive.'

Maria Zakharova
(Russian Foreign Ministry Spokeswoman)

'The West, fearing a breakdown of the unipolar world and an open confrontation with a militarily strong adversary, is provoking local conflicts around the world.'

Sergei Shoigu
(Russian Defense Minister)
